

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

SEMI-CENTENARY CATALOGUE.

The above title is given to the present catalogue because it was intended that it should be published at the time of the semi-centennial anniversary of the Seminary in 1870. The Editor, on undertaking the task, issued a circular, a copy of which was sent to every alumnus whose address could be discovered, asking a report of the facts in his history appropriate to such a publication. A contribution of 25 cents was also requested to meet the expenses of the publication; the Seminary being unprovided with funds for such a purpose. To this circular, up to the present time, there have been received answers from 425 alumni, and an aggregate sum of ninety-six dollars and twenty-five cents. The several contributions are acknowledged in the appendix.

The extreme difficulty of procuring satisfactory information in regard to deceased or non-reporting alumni; the Editor's absence abroad, and other necessary interruptions, have delayed the publication much beyond the time contemplated. Although still far from perfect, it is now committed to the press, and a copy will be sent to every alumnus who has reported, or whose address can be ascertained. The correction of errors in the catalogue, of which there are no doubt very many, is solicited, and will avail for some more perfect edition at a future day. Where an alumnus has formerly appeared engaged in the Presbyterian, Congregational or some other Evangelical ministry, and has wholly disappeared from view, the Editor has felt himself authorized to conclude, in the absence of all information, that such person was deceased.

NOTE.—Where the birth-place of an Alumnus has not been ascertained, the State of which he was a resident at the time of entering the Seminary is sometimes given. The sign "S.S." has been usually dispensed with. The year last given in each case, indicates either the date of the party's entering on the field of labor mentioned, or that at latest information, (1871 or 1872), his address or field of labor was at that place.
